Vacancies For 'Pass Men As Initial Pipeline Work Starts

Construction of the southern leg of the Alberta gas transmission trunk line is expected to begin within the next two weeks and by next summer may employ up to 400 men.

The project is part of the 1400-mile Alberta-California gas line project which is being built to provide the western United States with Alberta natural gas.

Officials of the contracting firm, Majestic Construction Ltd. of Edmonton, said that while the work force in 1961 may total 400 men, no more than 100 men will be employed this fall.

Ronald Baun, field officer manager, stated that the National Employment Office, in Blairmore, has been instructed to take applications for men for the initial work force.

Work will be starting with a small force of not more than 45 men but if the weather holds the number of men employed may reach 100.

All the men for the first crew will be hired from the Crows Nest Pass area and Mr. Baun warned employment seekers from outside the area that there will be no work for them as yet.

Applications are being taken for machine operators, truck drivers and power saw operators who own their own saws. The NES office will compile a list of potential employees and when the firm is ready to begin work, the men needed will be employed from it.

Coleman Youngster Suffers Unpleasant Experience

A Coleman youngster, Cheryl Mundel, two and a half years old daughter of Mr. and Mrs. Fred Mundel of East Coleman, suffered an unpleasant experience Thursday of last week, when the little girl fell into an outhouse.

The child had come into the house and her mother had removed her snowsuit and the youngster decided to visit the outhouse at the end of the yard. Mrs. Mundel saw her daughter enter the building and she rushed outside to get her, but when she arrived at the building the child was no where in sight, and Mrs. Mundel heard her daughter screaming down in the hole.

Mrs. Mundel became excited, and fearing her daughter might sink, rushed to the neighbor's home — Andrew Halluk — for assistance.

Mr. Halluk and Mrs. Mundel rushed back to the scene while Mrs. Halluk phoned the fire brigade. On reaching the outhouse Mrs. Mundel was able to reach far enough to get hold of her daughter and pull her out. As Mrs. Mundel and her daughter entered their home the Coleman Volunteer Fire Brigade arrived at the home in record time.

Mrs. Mundel has high praise for the department who were on the spot in a matter of just a few minutes. Except for dirty clothing and a real fright the youngster was uninjured.

Jury Rules "Accidental Death"

A coroner's inquest under the direction of Coroner W. A. Macleod of Pincher Creek, was held in the Blairmore Court House Thursday, October 13th, to investigate death of John Alexander Foster of Coleman.

The jury comprised, foreman Bert Moorhouse, J. G. Dobek, Russell Dunn, Michael Finn, William Perstay and Steve Ulrich.

A verdict of accidental death with no blame attached to anyone was returned by the jury, who also recommended that roll bars be installed on this type of tractor loader equipment.

Evidence given indicated that the late Mr. Foster came to his death in the Crows Nest Pass Municipal Hospital on September 15th as the result of injuries he sustained in an accident he experienced on September 13 when the rubber-tired loader he was operating at the Department of Highway's yard west of Coleman, at about 9:45 a.m., rolled over and crushed his right chest. He was taken to hospital and succumbed two days later.

Coleman Legion Poppy and Wreath Campaign HELP THE LEGION TO HELP OTHERS

WEAR A POPPY

Buy a Poppy on Remembrance Day, November 11th, to remember those who, in two World Wars gave their lives so that you may enjoy freedom.

This year, relatives of those who made the Supreme Sacrifice, organizations and the general public, are invited to attend their own local Church Service on Remembrance Day, Friday, November 11th. Afterwards there will be a short Ceremony at the Cenotaph, and Poppy Wreaths will be laid in memory of Coleman boys killed in action.

Canada Savings Bonds On Payroll Deduction

The coins we jingle in our pockets are not very different from those in the jars of Egyptian tombs.

But one kind of modern money had no counterpart in those days—these are Canada Savings Bonds on payroll deduction—as modern as instant tea and infra red gas.

"A painless way of saving," say employees who use the payroll deduction plan. "You never miss it after the first deduction."

Tailored to the modern pay cheque system, Canada Savings Bonds offer an almost automatic saving, especially figured out by our national banks. "The Bank of Canada," they are planned to be a good buy for the wage earner. "for the Bank of Canada knows that otherwise they would not sell."

George Kent, Calgary payroll deduction organizer for the Canada Savings Bond division of Southern Alberta had this to say, "In relation to the market and other Government of Canada bonds, the Canada Savings Bond buyer is getting a better deal than last year. The general level of interest has fallen far more than Canada Savings Bond interest and besides getting 471 on maturity, Canada Savings Bond buyers have the added advantage of being able to get their money back on call," said William Fulton.

Bond organizers for Alberta feel 1960 will be the best bond year yet. The time is ripe in many respects. Children born in the boom after the war are now on the threshold of education and home building, and bonds will be of great assistance in this.

Industry is more and more coming into Southern Alberta and employees who know the benefits of bonds bought through payroll savings will be more and more eager to have them.

Three and a half million dollars worth of bonds were bought on Alberta payrolls last year and it is expected this figure will be topped again.

Besides being a painless way of saving, employees say they like knowing the Bank of Canada is behind them. And payroll deducted savings bonds are a sure and safe way of saving because you are not tempted into aimless spending when you don't have it in your hand. The day your bond is paid up, it's almost like a gift.

Payroll organizers say the terms of interest for the 1960 series (471 at maturity) are the best ever in relation to today's market and other Government of Canada bonds.

Truck Registration For Winter Work To Commence

Gordon E. Taylor, Minister of Highways, announced today that truck registration forms became available on Monday in the Highways Building, Edmonton and in the offices of the District Engineers at Medicine Hat, Lethbridge, Red Deer, Calgary, Grande Prairie, Peace River, Edmonton and St. Paul.

The registration forms must be completed in full in duplicate and both copies must be turned in at the point of registration or returned to the Department of Highways, Highways Building, Edmonton.

Truckers in the Edmonton area are asked to return them directly to the Highway Building. After the form has been checked, entered and numbered in the Edmonton office, one copy will be returned to the trucker and this copy must be presented to the Engineer on the job when the trucker answers the call for work. The registration form must be completed by the trucker before a Commissioner for Oaths.

It is essential that the registration forms be completed in every detail. \$1200.00 has been set as the amount of earnings per owner and unless there is an unusually heavy registration it is expected that this amount will be maintained through the winter.

The truck registration system is one that originated in Alberta three years ago and is designed to share the work among the gravel dump truckers who are wholly dependent on this work for a living. It is not a guarantee of employment but rather an endeavor to give as many truckers as possible cash income during the winter months.

Only one truck per owner may be registered and the plan is not ap-

plicable to people who use the dump truck as a side line and who are not dependent for their major income on the dump truck.

Last year large firms and some professional men and men who had substantial businesses endeavored to register a truck. Such attempts are wholly unfair to the program and can only be looked upon with disfavor by all of the people of the province who recognize this program to be an endeavor to provide a little cash during the winter months for those who need it the most.

Truckers who are not ready to go anywhere in the province where the work is should not register. Last year on one occasion it was necessary to contact approximately 200 truckers in order to obtain 50.

This is not only costly but it delays the work and is not fair to the truckers who want to work.

Truckers who are not prepared to answer a call and to go to work whether the haul is long or short should not register. If a registered trucker is called and does not report it is assumed that he does not need the work during the winter.

Home & School Meeting Held

Over fifty parents and teachers attended the October meeting of the Coleman Home and School Association held last week.

Speaker for the evening was Principal Horace Allen, who reported

on school activities and news, and also announced that Jim Montalbetti had won the Governor-General's Medal for having attained the highest marks in grade nine in the Pincher Creek - Crows Nest Inspectorate.

An interesting example of how arithmetic is taught to the grade six pupils was demonstrated by Mrs. G. Montalbetti, and 21 of her grade six pupils who were present for the lesson.

It was announced at the meeting that President Helen Kropinak and Vice-president Helen Meddo would attend the Banff Home and School convention as representatives of the Coleman Home and School.

part of November or early December and when more definite plans have been completed announcement will be made.

Jehovah's Witnesses Hold Three-day Assembly

Local and district residents of Coleman were in Fort Macleod over the October 14 - 16 week-end to attend the three-day assembly of Jehovah's Witnesses, held at the Fort Macleod high school.

Sponsored by the Watch Tower Bible and Tract Society, the week-end meetings consisted of a Bible short course for the purpose of improving Bible study techniques and ministerial activities in southern Alberta area. Such refresher courses are held at regular intervals during the year in over 175 different lands where Jehovah's Witnesses have congregations.

High-lighting Saturday's sessions, was a special baptism and ordination service for new ministers who will serve in the southern Alberta district.

Climaxing the week-end's activity F. J. Franske, guest speaker from the Society's branch office in Toronto, discussed the subject, "Is God Interested in the Affairs of Men?"

Speaking to a capacity audience Sunday afternoon, Mr. Franske pointed out that "in spite of unprecedented world prosperity, technological advances and scientific development, man is now facing the possibility of total destruction by his own hands."

"The remedy," Mr. Franske declared, "will only come under the established Kingdom of God which will guarantee a righteous world government embracing all nations under the one King, Jesus Christ."

Coleman Girl Is Injured

Norman Reed of Pincher Creek, who was the driver of a car involved in a car-truck accident in Bellevue Sunday, October 2nd, sending six of the nine persons in his car to hospital appeared before Magistrate F. S. Radford of Blairmore last week.

On a charge of careless driving, Reed was fined \$50 and costs and had his driver's licence suspended for three months. He was also fined another \$10.00 for having four persons in the front cab of his car.

The accident happened Sunday evening when Reed was proceeding east to Pincher Creek with a load of eight teen-agers besides himself. The Reed car slammed into the rear section, just ahead of the dual wheels of a tractor-trailer that was hauling heavy oil rig equipment and was proceeding in a westerly direction around a curve near the Green Garage in Bellevue.

The truck driver was uninjured, but six of the teen-agers, including

Reed, were taken to the Crows Nest Pass Municipal Hospital and admitted.

Most seriously injured was a Coleman girl, who sustained a broken arm and broken finger when she was slammed through the windshield of the car. The other passengers received cuts, bruises and abrasions.

Coleman C.Y.O. News . . .

The organization meeting of the Coleman C.Y.O. was held in the Catholic hall on Sunday, September 18th. About 25 young people were present. Father Fleming welcomed everyone and then proceeded to elect an executive.

The following members were elected:

President, Connie Rejman. Vice-president, Jerry Rejman. Secty.-Treasurer, Marlon Ash.

It was decided to have our meetings every second Sunday with dues consisting of 50¢ per person. In past years a question box was also taken up, therefore, members all agreed to also have one this coming year. A dance and a social committee were then formed.

Sunday, October 2— This was actually our first real business meeting, and it proved to be a success.

The business topic was the first to get disposed of.

The executive had appointed a Spiritual and Apostolic committee and an Education one.

Jerry Rejman was to organize the group discussion for this meeting.

A dance was to be held on Friday, October 7 with the Lucky Dots orchestra, from Michiel. In attendance various groups to deal with the preparation of this dance were formed.

All business being disposed of the Educational committee took over. I must admit that this group did a very good job in discussing the well known phrase, "Everybody Does It."

Since it was getting late the Social committee decided to make their business short, thus they served all the members hot chocolate and cookies.

As we came everyone is working hard hoping to make this year a successful one. We hope to draw the interest of more new members—so why not join us?
